

## Management Consultant (Logistics)

**Location:** Eden Prairie, MN

**Salary:** \$75,587.00 per year

To apply please email Liz Perez at [eperez@dairyproductsinc.com](mailto:eperez@dairyproductsinc.com)

### **What you will do:**

- Review current international sales and export strategies.
- Analyze and identify the strengths and weaknesses of current logistics processes for efficient movement of products from the field to the ultimate customer.
- Advise management on new strategies for future growth focused on export of dairy products.
- Develop improved solutions for the transportation, handling, and distribution of dairy commodities to optimize logistical supply chain procedures in international markets.
- Build maximum efficiency in areas of logistical services.
- Review with technical leaders on issues associated with the import and export operations for dairy commodities including the flow of traffic for movement of product, freight purchasing and logistics, supervision of shipping and receiving, way billing and charge assessment.
- Advise management on policies for foreign shipping interests ensuring conformity to tariff and customs regulations.
- Evaluate the current costs of freight handling, inventory, and transit times to ensure maximum efficiency.
- Participate in the selection and management of third-party logistics providers.
- Develop and implement logistics strategies to deliver efficient and cost-effective operations.
- Track the status of goods in real-time to ensure contracts are being fulfilled.
- Establish and implement processes and procedures to ensure compliance with regulatory requirements.
- Expand communication channels for better understanding of Latin American customers' needs in regard to import documentation and logistics.
- Position requires domestic and foreign travel up to 15% as needed and customary for the occupation.

### **Position Requirements:**

- The position requires a Bachelor's degree or foreign equivalent degree in International Business, Business, or closely related field.
- The qualified candidate must have at least 1 year (12 months) of experience in an international procurement position, or business consultant position or closely related occupation.
- The qualified candidate must also have at least 1 year (12 months) of experience with all of the following: (a) ensuring regulatory and logistics compliance within the supply chain; (b) evaluating and advising company management on transportation and distribution contracts with vendors and third-party contractors; (c) tracking products throughout the supply chain; (d) analyzing the supply chain to project sales, determine profitability, and create strategies for future growth; (e) advising company management on supply chain matters; and (f) providing analysis of current logistics processes to develop improved solutions for transportation, handling, and distribution.
- All experience may be gained concurrently.
